

It's time to  
concern ourselves  
with Earth's most  
endangered  
natural resource.

**Presented by the Travis County  
Texas A&M AgriLife Extension Service**

**Saturday, May 4, 2013 10:00 AM to 2:00 PM**

Join us at St. Edwards University on May 4, 2013 to talk about water conservation! Workshop topics will include:

- Plant Selection to Conserve Water
- Rainwater Harvesting
- Efficient Home Irrigation Systems
- Converting Landscapes from Lawn to Ornamental Plants
- Water Quality

Don't leave the kids behind! WATER WISE is offering a fun day of educational activities and games related to water conservation for youth. Youth will learn about aquifers, rainwater simulation, and tips for saving water at home and school.

This workshop will take place at the Ragsdale Center, located at the center of the St. Edwards University Campus, adjacent to the bookstore. Parking is free and will be clearly marked.

**Cost for Adults:** \$25

**Cost for Youth** (ages 7-12): \$15

Registration cost includes lunch (vegetarian option included), a canvas tote filled with a ground moisture meter, 7 spray hose nozzle, and a shower timer.
